Dear all, i am searching for a new owner for my Mini who can take good care of him like i did.

Since he is with me he is being kept in a nice garage and i also installed the following new parts:

- Radiator
- All spark plugs and respective coils
- All breaking discs and pads
- New filters

The engine runs very good and the driving is also very solid.

16 inch Wheels

APK till 18 August

The only downers are the AC needs something and points of rust normal in this models.

I am only selling it because i have a new car and can't have both.

The car is sold without warranty and the price is ONLY negotiable in.
