Well-designed and powerful Laptop in excellent condition! I was very happy with it and only selling it because I switched to MacOS. I am sure it will serve you well. Thanks to the dedicated graphics card, you can use it not only for coding and office work, but also for creative hobbies and casual gaming (e.g. Red Dead Redemption 2 runs smoothly on 1200p medium-high). I treated this laptop very well through daily cleaning with a dedicated microfiber, keeping it in its case when not in use and conserving its battery (condition at 100%).

For buyers in Maastricht, I can deliver it personally.

Bought in February 2022 for 1099 Euros, used until April 2023. For 700 euros, the quality-price ratio is out of this world!
